PROFESSIONAL SUMMARY

"Motivated BTech Computer Science Engineering student with strong foundations in programming, data structures, and cloud technologies. Certified in building Computer Vision applications using Azure Cognitive Services. Passionate about developing innovative software solutions and continuously enhancing technical expertise."

EDUCATION

Bachelor of Technology in Computer Science, *GLA University, Mathura*	June 2027
Euro International School, Gurugram	May 2023
Euro International School, Gurugram	May 2021

INTERNSHIP/ TRAINING EXPERIENCE

Job Oriented Value-Added Course, GLA University, Mathura June 2025 – July 2025
Trainee

- Completed training in Frontend and Backend Web Development, gaining hands-on experience in HTML, CSS, JavaScript, and backend integration to build dynamic web applications.
- Build a Computer Vision App with Azure Cognitive Services.

PROJECTS

Mood Based Music Recommendations

- Developed a full-stack web application using **HTML, CSS, JavaScript,** that recommends songs based on user mood input.
- Implemented backend logic and integrated third-party music APIs to fetch real-time song data dynamically
- Collaborated with a team of members in the design and development of the application, contributing to frontend implementation and seamless integration of third-party APIs.

Hospital Management System

- Developed a scalable full-stack web application to streamline hospital operations including patient records, doctor management, and appointment scheduling.
- Implemented REST APIs using **Express.js** and designed **MongoDB** schemas with relational data modeling.
- Built a dynamic React frontend enabling real-time updates and efficient user interactions.
- Improved system efficiency by centralizing hospital data into a unified platform.

File Organizer

- Built a desktop application in **Python** to automate file organization based on file types, improving system file management efficiency**.**
- Implemented hash-based duplicate detection to identify and manage redundant files, optimizing storage utilization.
- Designed a lightweight and user-friendly utility to streamline local file system maintenance.

SKILLS

Technical	**Professional**
C, Python	Effective Communication Skills
Java, Mongo DB, React	Team Work
Full Stack Web Development	Interpersonal Skills

PROFESSIONAL ACHIEVEMENTS/ INSIGHTS

- Certified in C Languages by Infosys Springboard.
- Certified in Python by Ducat Training School.
- Certified in Java by Ducat Training School.
- Google Certificate in Data Analytics.

- Certified in Full Stack Web Development organized by CEA (GLA).

CO-CURRICULAR ACTIVITIES

- Participated in *Entrevista 3.0*, organized by the GFG Student Chapter at GLA University (April 2025), enhancing problem-solving and interview skills.

DECLARATION

I hereby declare that all the above-mentioned information is true and correct to the best of my knowledge.
